

Oviedo, 2010

Our association has been in place since 1983 and was founded by the members of the association Prelegalization of CB in Spain that live in this town. We belong to the Spanish CB Federation which represents us at a national level. DX is our main activity which we encourage through a large numbers of diplomas, QSLs and other material for our members.

For members that don't belong to division 30 the ONLY payment is a one-time fee of 25 Euros. Once paid, the member receives our welcome pack which includes 100 QSL's, stickers, member card, directory of members and a PAS pin. All this is sent by mail.

In order to register as a member you have to give us your personal details including date of birth and address. You will also have to tell us the details you want in the directory. You can pay your member fee through a bank transfer to our account La Caixa IBAN ES32 2100 1837 03 0200046940. You can also pay through post transfer to our PO Box 921 E33080 Oviedo, Spain. Finally you can also pay through Paypal. You will find additional details in our website www.papaalfasierra.org

If you decide to join our association you will have to contact HQ PAS at least once a year just to let us know you are still active. You can do this by mail, phone or e-mail at hqpas@telecable.es. Failure to keep in contact at least once a year will mean your removal from our members list.

If you want to receive our directory on a yearly basis you will have to pay 2 Euros which is basically the cost of sending it.
